Subject: EMAIL FROM JEFF BROOKS WITH ADVANCED COMMUNICATIONS CLEC 2011-119-C

Commissioner Hamilton

In November 2013 I received a Docket from the State advising that Advanced Communications was in non-conformity with certain filing requirements. We immediately responded to this docket with correspondence rebutting the assertion and copies of the original filings, both of which had originally been submitted in a timely manner.

I received another notification from the state on Friday December 20 2013, advising me Docket No. 2013-387-C was open, and that James McDaniel had testified before the Commission. The attachments within the Docket indicated Advanced Communications was still in non-compliance.

I am going to re-send these documents to the attention of Mr. Daniels. To ensure their receipt, I will plan to send copies of the documents to Faith E. Shehane. For your records, will also send a copy to your attention as well. If there are other individuals who should receive these documents or correspondence relating to the Docket, I would appreciate being advised as to whom those individuals would be.

Respectfully,

Jeffrey M. Brooks

Advanced Communications Solutions
